Our Mission

To be a trusted industrial supply partner, defined by quality, transparency and reliability, and enabling our clients to operate with confidence and efficiency.

Leadership

Our Co-founder and Managing Partner combines hands-on EPC project experience with a strong legal foundation in construction and commercial trading, bringing a distinct edge to every engagement.

Procurement Categories

Oil Rigging and Drilling Equipment

Construction and Heavy Equipment

Pumps, Valves and Engines

Agricultural Equipment and Parts

EV Charging Stations and Systems

Workshop and Safety Equipment

Measuring and Control Instruments

LPG, LNG and Pressure Vessels

LPG Bowzers

Oil Rigging and Drilling Equipment

- Drilling rigs and derrick components
- Drill bits, pipes and collars
- Wellhead equipment and BOP systems
- Mud pumps and circulation equipment
- Downhole tools and completion equipment
- Safety and pressure control systems
- Inspection and testing instruments

Construction and Heavy Equipment

- Excavators, bulldozers and loaders
- Cranes and lifting equipment
- Concrete mixers and batching plants
- Generators and power equipment
- Scaffolding and formwork systems
- Road construction machinery
- Heavy machinery spare parts

Agricultural Equipment and Parts

- Tractors and tillage equipment
- Irrigation systems and pumps
- Harvesting machinery
- Agricultural spare parts
- Fertilizer and spray equipment

Pumps, Valves and Engines

- Centrifugal and submersible pumps
- Gate, ball and butterfly valves
- Diesel and gas engines
- Pressure relief valves
- Engine spare parts and seals

Workshop and Safety Equipment

- Hand tools and power tools
- Workshop machinery and benches
- Welding equipment and consumables
- PPE: helmets, gloves, harnesses
- Fire safety equipment
- First aid and emergency supplies
- Fall protection and safety signage

Measuring and Control Instruments

- Pressure gauges and transmitters
- Flow meters (magnetic, turbine, ultrasonic)
- Temperature sensors and controllers
- Level measurement instruments
- Calibration and testing equipment
- Industrial control panels
- Data loggers and recorders

EV Charging Stations and Systems

- AC and DC EV chargers
- Fast charging systems
- EV charging infrastructure
- Smart charging controllers
- EV fleet management systems

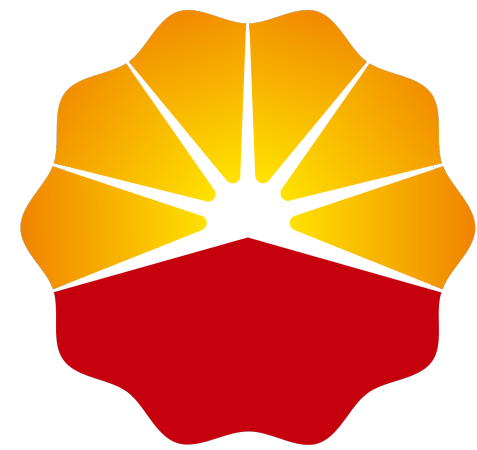

Our Clients

Pakistan State Oil

China Petroleum Pipeline Bureau

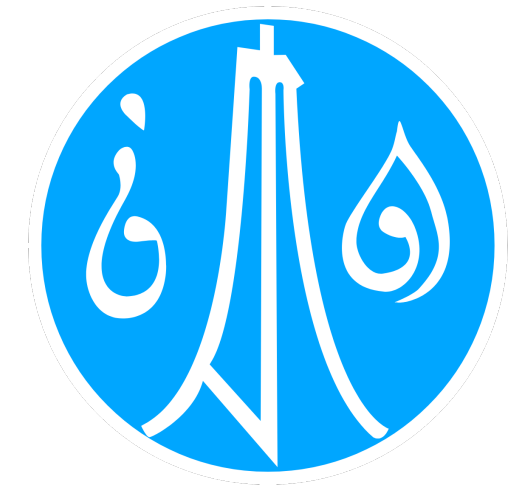

Pakistan Petroleum Limited

Pakistan Refinery Limited

Pak-Arab Pipeline Company

Oil and Gas Development Company Limited

Why Choose QSM

Quality Assurance

We source only from verified manufacturers and trusted suppliers, ensuring every product meets industry standards and your specifications.

Reliable and Timely Delivery

Our logistics capability ensures prompt delivery, minimising downtime and keeping your operations on schedule.

Competitive Pricing

Through our global sourcing network, we offer market-competitive pricing without compromising on product quality or reliability.

Global Sourcing Network

Access to a broad network of local and international suppliers allows us to fulfil specialised and bulk requirements efficiently.

Single-Source Procurement

Reduce complexity by working with one trusted supplier across multiple categories, saving time, cost, and administrative effort.

Cross-Sector Expertise

Our team has deep industry knowledge across Oil and Gas, Construction, Agriculture, Energy, and more, providing informed supply solutions.
